

Analyst Positions, Northern Regional Alliance

About us:

The Northern Regional Alliance (NRA) was formally established in 2013 by the Northern Region District Health Boards. The NRA undertakes activities to support the four Northern Region District Health Boards (DHBs) – Northland, Waitemata, Auckland and Counties Manukau DHBs, in their implementation of Government health policies and Ministerial priorities as directed by the DHBs and approved by the NRA Board.

Regional Decision Support work is undertaken to support DHBs in regional health planning and workforce development functions. In addition to delivering established work for regional health planning and DHBs' funding and planning responsibilities, the scope of work for the team has broadened in the recent year to assist the wider role for which NRA has responsibility.

About the Role:

We are recruiting for analysts with a diverse range of skills and experience to join our Decision Support team.

The position will be responsible for managing the end-to-end process of data mining through to generation of analytic insights for regional strategic projects plus reporting for a number of regional clinical networks and ad hoc analyses.

About you:

We are looking for analysts with the following attributes and experience:

- Strong logical mind
- Excellent problem solving skills
- Genuine enjoyment of data analysis
- Demonstrated analytical abilities, including the ability to calculate and interpret statistical information
- Excellent team skills and an ability to work collaboratively and effectively with others
- Experience with tools such as SQL & R

This is a great opportunity for individuals with a statistics, mathematics, information management, data science or engineering science background who have familiarity with manipulating large data sets. Experience in the health sector or a consultancy environment will be beneficial, but this is not critical for candidates who can demonstrate that they excel in the skill-sets we seek.

The positions are full-time based in Auckland at the NRA, 650 Great South Road, Penrose.

You must be eligible to work in New Zealand to be considered for this opportunity. While all applications will be acknowledged by email, we regret that only successful candidates required for interviews will be contacted directly. You must be available for an interview in Auckland.

If you would like any further information please contact Grant Hanham, Lead Analyst at the Northern Regional Alliance: Grant.Hanham@nra.health.nz, mobile: 021 534 719.

Direct enquiries only please - no agencies.
